To Whom It May Concern:

LETTER OF RECOMMENDATION FOR KUNAL CHAVAN

I take great pleasure in writing this letter of recommendation for Kunal Chavan (VIT Vellore) in support of the student's application for admission to a graduate programme at your university.

I first became acquainted with Kunal when he attended the Global Academic Internship Programme (GAIP) – Data Analytics Using Deep Learning Course held at the NUS School of Computing in collaboration with Corporate Gurukul from November to December 2023. Subsequently, Kunal had continued to undertake a group research project under my remote supervision from February to August 2024. The title of the research project is "Anomaly Detection in Network Packets in IoT Devices for Intrusion Detection using Machine Learning".

Kunal had completed an oral defence of the project satisfactorily and a copy of the research paper is available for inspection upon request.

Throughout the duration of the research project, Kunal had demonstrated good research capability and participated actively in all research tasks. Kunal was committed to producing high quality research and I was impressed by the student's tenacity to succeed. I am confident that Kunal would be well-suited to the rigorous academic environment of your university.

I appreciate your favourable consideration with regard to Kunal's application. Do feel free to reach out to me at my email address tanwk@comp.nus.edu.sg if you have any further questions on Kunal.

Thank you for your consideration.

Yours sincerely

A handwritten signature in black ink, appearing to read "Tan Wee Kek".

Dr. Tan Wee Kek
Associate Professor
